

# CYNTHIA MOHAN

Web developer

UI Engineer

Developer

## PROFILE

I am a confident highly motivated front-end developer with excellent client interaction skills, good communication and the ability to work both independently as well as with a team. I primarily focus on writing clean and efficient code. I am proficient in HTML CSS and JavaScript. I have also worked with Bootstrap, Foundation jQuery and other libraries of JavaScript.

## EXPERIENCE

### Weather Clock with Currency Conversion

This is an app that enables a User/Client to find the current time, weather and currency conversion when planning a travel to any destination in the world. It uses Dayjs, Foundation and jQuery in addition to HTML and CSS. It also uses two server-side api's which enable the weather prediction and the currency conversion.

### Weather Dashboard

Uses the server side API- Open weather Maps to provide the weather of the city searched. It also shows the 5-day forecast of that location and a search History.

### Day Planner

Enables a user to plan the activities of the day.it features a color change for current, past and future hours.
